JAPANESE TEA

●●●  
SPECIALTY TEA

# GREY DRAGON

An Indonesian oolong from West Java's highlands, Grey Dragon features elegant, needle-like leaves with a sweet, fruity aroma and a light malt note.

Characteristic : Floral, Fruity, Smooth, Delicate, Low Astringent

●●●  
SPECIALTY TEA

# Oolong

Oolong tea is partially oxidized, offering a flavor profile between green and black teas, ranging from light and floral to rich and toasty.

Characteristic : Floral, Sweet, Fruitty, Nutty, Astringent

●●●  
SPECIALTY TEA

# JASMINE

Jasmine tea is scented with fresh jasmine blossoms, imparting a delicate floral aroma and flavor.

Characteristic : Floral, Sweet, Vegetal, Slight Astringent

●●●  
SPECIALTY TEA

# WHITE PEONY

White Peony is a white tea made from unopened buds and young leaves, producing a sweet, mild flavor with floral notes.

Characteristic : Floral, Sweet, Vegetal, Slight Astringent

●●●  
SPECIALTY TEA

# WHITE TEA

White tea is the least processed tea, harvested before the leaves fully open, resulting in a delicate flavor and high antioxidant content.

Characteristic : Delicate, Floral, Sweet, Smooth, Slight Astringent

●●●  
BLACK TEA

# PF (Pekoe Fannings)

PF comprises smaller tea particles, resulting in a quick-brewing, strong-flavored tea, often used in commercial tea bags.

Characteristic : Bold, Robust Flavor, Floral Sweetness, Malty Undertones, Astringent

●●●  
BLACK TEA

# OP (Orange Pekoe)

OP refers to whole tea leaves from the new flushes, offering a delicate flavor and lighter body compared to broken leaf grades.

Characteristic : Smooth, Full-Bodied Flavor, Subtle Floral and Fruity Notes, Light Astringency, Bright

●●●  
BLACK TEA

# BOP (Broken Orange Pekoe)

BOP consists of broken tea leaves, producing a strong, robust flavor and quick infusion, commonly used in breakfast blends.

Characteristic: Bold, Robust Flavor, Malty, Noticeable Astringency Due To High Tannin Content

●●●  
BLACK TEA

# BOPF (Broken Orange Pekoe Fannings)

BOPF is a grade of black tea with finely broken leaves, yielding a strong, full-bodied brew with a bright reddish liquor.

Characteristic: Bold, Robust Flavor, Floral Sweetness, Malty Undertones, Astringent, Aromatic

● ● ●  
**BLACK TEA**

# DUST

Dust grade tea consists of the finest particles, producing a very strong, brisk cup, commonly found in mass-market tea bags.

Characteristic: Bold, Robust, Malty Notes, Astringent, Bitter

●●●  
GREEN TEA

# CHUN MEE

Chun Mee, meaning "Precious Eyebrows," is a Chinese green tea with hand-rolled leaves, offering a medium-bodied infusion with slight fruity tartness.

Characteristic : Light, Fresh, Bitter, Vegetal With a Clean Slightly Sweet Finish

●●●  
GREEN TEA

# FANNINGS

Fannings are small tea leaf particles left after higher grades are gathered, brewing quickly to produce a strong, flavorful cup.

Characteristic : Vegetal, Robust Flavor, Bitter, Slight Astringent

●●●  
GREEN TEA

# GUN POWDER

Gunpowder tea consists of green tea leaves rolled into small pellets, resembling gunpowder grains, yielding a bold, slightly smoky flavor.

Characteristic : Fresh, Vegetal, Slightly Sweet, Umami, Astringent, Bitter

●●●  
GREEN TEA

# PEKOE SUPER

Pekoe Super is a high-grade green tea with long, needle-like leaves, producing a bright green, flowery, and sweet infusion.

Characteristic : Delicate, Floral, Slightly Sweet, Bitter with a Hint of Astringent

●●●  
GREEN TEA

# SOW MEE

Sow Mee is a type of white tea made from mature leaves and buds, offering a naturally sweet aroma and mellow character.

Characteristic : Similar to Chun Mee But Slightly More Vegetal Flavor, Rougher Texture

●●●  
JAPANESE TEA

# GENMAICHA

Genmaicha is a traditional Japanese green tea blended with roasted brown rice, offering a nutty, toasted flavor and a light, refreshing taste.

Characteristic : Roasted Rice, Vegetal, Savory, Sweet, Umami, Slight Astringent
